A Few Pages of Helpful Information

You will find, in these first twelve pages, a great deal of useful information about your telephone service.

They tell you what to do if you have difficulty with the service. They describe many ways in which the telephone can be more useful to you.

It will pay you to read these pages now and to go to them whenever you have a question about your telephone service.

At our Business Offices, too, you will always be welcome. Their addresses are shown on Page 4. To call by telephone, dial 811.

We realize that difficulties will sometimes occur in spite of our best efforts to avoid them. When they do, we are anxious to correct them promptly and to take steps that will prevent them from happening again. When you wish to report any service difficulty or to obtain assistance, please follow the directions on Page 1.

If any matter is not handled to your satisfaction after you have followed these directions, please call the Business Office Manager. You will find his name and telephone number on Page 5. No charge is made for calls from Brooklyn to any business or administrative office of the Company in New York City and suburbs.

Getting the Most Out of Your Telephone Service

The Telephone Company maintains a Customer Service Bureau whose sole job is helping New York's business people to make more effective and economical use of their telephone service. Its services are available to you without charge. All you need do is call the Business Office (Dial 811) and ask that a representative call on you to discuss any of the following services:

Review of Your Telephone Equipment

A study of your telephone arrangements will help you to judge how well they fit your present needs. As your business changes—in volume, in methods, in organization—so do your telephone requirements. You may need a different kind of equipment. You may need more equipment or you may need less. Even if you have the right equipment and the right amount of it you still may not be getting the most out of it. The experience of our Customer Service Bureau is at your disposal and we hope you will use it freely.

Review of Your Out-of-Town Service

A study of the methods used by your organization in handling your out-of-town calls may save you money and increase your business. From our knowledge of the experience of other people, we may be able to suggest definite ways by which you can get more efficient and economical handling of your out-of-town telephone service. We will also be glad to show you methods of conserving the time and money of your representatives while they are away from the home office.

Survey of the "Voice" of Your Business

A study of the methods used by your organization in handling incoming calls at your switchboard, and by all those who represent you before your customers, may be desirable. The efficiency of a modern business is reflected in the way it handles its telephone calls. Its character shines out in the telephone voices of those who represent it. If you are not entirely satisfied with the "Voice" of your business, we can help you and will be glad to assist in whatever training may be required.

Aids to Telephone Merchandising

Our telephone merchandising service has helped thousands of manufacturers, professional firms, wholesalers, retailers—small as well as large—to increase their business by stimulating telephone orders. To retailers we say: "The modern housewife is telephone-minded. She likes to do business with a store whose advertising and selling methods tell her it is telephone-minded too. We know what some of these methods are and would like to pass the word along to you."

AUG. 1940

New Services–Inquiries–Suggestions–Bills

Whether you bring your telephone needs to us by telephone, in person or by mail, you will find at our business offices an attitude of friendly helpfulness.

Do you feel that you need more facilities than you have? Or less? Talk it over with a representative in our Business Office, who will suggest service to fit the needs of your home or office.

Have you had difficulty, for one reason or another, in paying your telephone bill? Tell us about it and perhaps satisfactory arrangements can be made.

Do you have a criticism of the service? Bring it to us and we will do everything possible to remove its cause.

Have you a suggestion as to how we can serve you better? Let us know what it is. It may be the means of effecting a worthwhile improvement in your service.

Business Office Service

Your account is handled by a representative who will be glad to arrange for any changes in your service, furnish information about bills, directories, etc., or answer any question you may have about telephone service.

From your own telephone, call the Business Office (Dial 811). From a telephone other than your own, give the operator the number of the Business Office, as shown on the opposite page.

If you prefer to transact business in person, please go to the business office most convenient to you. (See below.)

The business offices are open weekdays from 9 to 5, except Saturday, when they close at noon. If, outside of these hours, an emergency arises requiring immediate establishment or restoration of service, dial or call EX change 6-5100 and ask for the Manager.

Bill Payments

Telephone bills are rendered once a month and are due on presentation.

Payment within fifteen days will be appreciated. If this is inconvenient, the business office will make every reasonable effort to arrange a more convenient payment date.

When paying by mail, please return the bill stub with your check. If the stub has been mislaid, please write your telephone number on the check. If you have mislaid the return envelope, address the business office nearest you. (See below.)

When paying in person, please bring the bill to any of the offices or banks listed below.

Your bill covers service charges for one month in advance of its date, and out-of-town calls and additional local calls made in the month preceding its date.

If you have any question about your bills, just call the Business Office (Dial 811) and ask for the representative handling your account.

Addresses of Business Offices

(Where bills may be paid and other business transacted)

Telephone Number Services

Personal Number Lists

In placing a call, it is important that you first know the number and then that you dial it or give it to the Operator accurately. Your service will therefore be better if you keep a personal number list. The Business Office (Dial 311) will send you, on request, an attractive free booklet for telephone numbers.

Directory and Information Services

Every subscriber in Brooklyn is given a directory every six months listing Brooklyn subscribers.

Directories are also available for Manhattan, The Bronx, Queens, Staten Island and suburban points. To give these books to all Brooklyn subscribers would be an inconvenience to most subscribers and a needless expense to the Company. In cases where they are required, they are furnished on request. Otherwise it is better to get numbers from Information (Dial 411) and keep them on your personal list.

If your directory becomes lost or mutilated, the Business Office will replace it. To prevent mistakes, we ask that you return old books when new ones are delivered.

Classifed Directory (Red Book)

Every Brooklyn subscriber is also given, every six months, a classified directory—"The Red Book"—in which all business and professional telephone numbers are listed under suitable headings. No matter what commodity or service you want, you can quickly find in the Red Book someone who can supply it.

Additional listings and advertisements in the Red Book may be arranged for by calling the Business Office (Dial 811).

Displaying Telephone Numbers

It will be a convenience to those who may wish to call you, and will help to speed service, if you will print your telephone number on stationery and elsewhere just as you do your street address.

Although we cannot guarantee that any number will be permanent, we make no changes in numbers unless the needs of the telephone system itself make it essential to do so. When a number is changed, we give as much advance notice as possible.

Directory Listings

If you have a telephone you are of course entitled to one free listing. If you have more than one line, you are entitled to one free listing for each line up to three.

When you get a new directory, please check your own listings and, if incorrect, notify the Business Office at once so that we may adjust our records for the next issue and protect your service in the meantime.

Many telephone users take additional listings at a cost of 25c each per month. Their telephone numbers are thus listed in other places in our directories where people may look for them. Here are some of the kinds of listings you can arrange for by calling the Business Office (Dial 811).

When you want to list your home telephone with your business telephone. No charge if you are a residence subscriber in Brooklyn.

Backrack R V Inc 780Court ..... TR Ianp 5-9970
Residence 1920Bpet ..... SO ulm 6-0003

When your telephone is elsewhere in New York but you want it listed in the Brooklyn directory.

Emergency call ..... PR elna 5-0 [illegible]

How to Dial

If you are not sure of the number, look in the directory. If the number is not in the directory, dial 411.

Let's say the number is FOxcroft 7-9970.

Remove the receiver.

Listen for the dial tone—a steady humming sound.

Place your finger in the opening over the letter "F".

Move the dial clockwise until you strike the finger stop.

Remove your finger and allow the dial to turn back. Do not push the dial back.

Dial the letter "O" (in black) in the same way.

Then dial the figures 9, 7, 7 and 0 (in red).

When you hear a burr-burr-burr sound, the called telephone is ringing.

If you hear a buzz-buzz-buzz sound, the called telephone is busy. Hang up and call later.

If you hear a buzz-buzz—buzz-buzz sound, you have made an error in dialing. Hang up for a few seconds and begin again.

If you make a mistake in dialing, hang up for a few seconds and begin again.

If you have trouble dialing a number, hang up for a few seconds. Then dial the opening where the word "Operator" appears, and the Operator will help you.

The bills that you receive for dial [illegible] should give to the Operator any shown on the zone card that has been furnished you, additional copies of which may be secured at the Business Office.

If you are a party line or an extension subscriber and you do not hear the dial tone when you remove the receiver to make a call, be sure to the [illegible] is free. If there is no response, hang up for a few seconds and begin again.

Listen while dialing and if you hear another party come on the line, tell him that it is in use and request him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and begin again.

Aug. 1940

Telephone Service for Home and Business

If you wish any of these services, or if you want more information, call the Business Office (Dial 811).

Rates are those in effect July 1, 1940

Charges for Local Service

Message Rate Service: The monthly rate for this service pays for all out-going local calls up to a certain number. A charge is then made for each call over that number. No charge is made in case your call is not completed because of a "Line is busy" or "Don't answer" condition, or for any other reason. If you get a wrong number, call this to the attention of the Operator.

New York City is so large and its telephone system so complex that it has been necessary to divide the city into zones. Each call to your own or a nearby zone counts as one call. Each call to more distant zones counts as two and in some few cases three calls. The Operator will be glad to tell you whether any call you wish to make is a one-, two- or three-call charge or the Business Office will be glad to send you a card with this information.

Calls that are dialed without the assistance of an operator are counted by an accurate system of mechanical registration. All other calls are recorded by the operator.

Our message rates provide for an overtime charge on all local calls of more than five minutes. However, except at most coin telephones, we do not make an overtime charge within the one-call range unless the time is materially in excess of five minutes.

Flat Rate Service: Residence service can also be had at a monthly charge which pays for all Brooklyn calls. Calls to other points in New York City are charged for at 5c, 10c, or 15c for the first 5 minutes. The Operator will be glad to tell you the charge for any call at any time or a card showing this information may be secured by calling the Business Office.

Residence Service

Telephone service in the home saves work, energy and time, promotes social enjoyment and provides protection in emergencies.

Monthly charge for individual line service, which pays for 66 outgoing local calls . . . $4.25
Charge to put in . . . $3.50

Additional local calls: 5c for each call between 66 and 300; 4½c for next 300; 4c for next 300 and 3½c for all others. N. Y. City calls are charged as one, two, or three local calls, depending on distance from your own central office.

Flat Rate and Party Line service is also available.

Extension telephones on bedroom table or kitchen wall help make the home complete. They save time, conserve energy and provide protection.

Monthly charge with Message Rate service . . . 50c
Charge to put in . . . $2.00

Flat Rate service charges will be furnished by the Business Office on request.

Temporary Suspension of Service: When you are leaving home for not less than 15 days and not more than 7 months, request the Business Office to temporarily suspend your service. This arrangement will enable you to retain your telephone number and your directory listing and prevent any unauthorized use of your telephone in your absence. If you wish, persons calling your number will be given the number of another telephone where you may be reached. When you return home, your service can be restored on short notice. For 15 days to one month, the charge is $1.50. For more than one month, the charge is $1.50 for the first month and at the rate of 50c a month thereafter.

Business Service

Telephone service speeds up business transactions, opens the door for telephone orders, aids in selling and buying. The modern business is often judged by the kind of telephone service it gives.

Monthly charge which pays for 75 outgoing local calls . . . $6.00
Charge to put in . . . $5.00

Additional local calls: 5c for each call between 75 and 300; 4½c for next 300; 4c for next 300 and 3½c for all others. N. Y. City calls are charged as one, two, or three local calls, depending on distance from your own central office.

Extension telephones: Monthly charge . . . 80c
Charge to put in . . . $2.50

Additional lines: Monthly charge . . . $2.75
Charge to put in . . . $5.00

Other Telephone Services for Home and Business

Do you want telephone service in your elevator—or your boat? Do you want a flashing light as well as a telephone bell? Do you want a weather-proof telephone for the garden or one that you carry about the house and plug in just like a lamp? Do you want a booth or head phones for a noisy spot? Do you want an amplifier to offset hearing difficulty? All these we can arrange for you and many more. Just call the Business Office (Dial 811).

Privacy on Extension Telephones

When you want to use your telephone without being overheard by someone on an extension, an arrangement can be provided that will assure privacy. Just by throwing a key, you can cut the other telephones off the line.

Direct Connection between Telephones

People often want to telephone others on the same premises. A proprietor to instruct an employee. A housewife to talk to a servant. We can so arrange your main and extension telephones that you can talk between them without calling the operator.

Picking Up Calls from Another Line

Calls can be made or received over more than one line from the same telephone. This is helpful in cases where one person uses more than one line, or when a person picks up calls for a second person who is absent.

Holding a Call while Making Another

You can have someone wait on one line while you make or receive another call on the same telephone over a second line. A switch can be provided to connect you instantaneously with one line or the other.

Weather and Temperature Day and Night

By simply dialing Weather 5-1212, any time day or night, you can get the latest weather forecast for New York City and vicinity and the official prevailing temperature. The information comes to us by teletypewriter from the U. S. Weather Bureau and we repeat it at once over an announcing system. The charge from message rate telephones is one local call—from flat rate and coin telephones, five cents.

Correct Time

You can get the correct time by simply dialing Miriam 7-212 at any time day or night. Every six hours our clocks are checked and adjusted to within 5/100 of a second of the Arlington time signals. Thousands of New Yorkers use this service daily to set their clocks and watches. The charge from message rate telephones is one local call—from flat rate and coin telephones, five cents.

Telegrams by Telephone

You may telephone telegrams, cablegrams, or radiograms to the Postal Telegraph-Cable Company or the Western Union Telegraph Company following instructions shown under the listings of these companies in this directory. The telegraph charges will appear on your telephone bill. You may also telephone your telegrams from public telephones, paying as you would for a telephone call.

Aug. 1940

Other Telephone Services for Home and Business

(Continued)

Telephones for the Hard-of-Hearing

If your hearing is impaired, you need not be deprived of the use of the telephone. We can provide you with equipment that amplifies the voice in the receiver of your own telephone. It can be stepped up to the desired volume at will, but does not interfere with anyone else using the instrument. The charge is only $1.25 a month ($1.50 to put in).

Telephone Training Booklets

Good telephone impressions are just as important as good face-to-face impressions. This is true in business and in social life as well. We have a number of booklets designed to help those who want to improve their use of the telephone in this respect.

These booklets may be obtained without charge by calling the Business Office.

Receiving Orders by Telephone

Where large numbers of inquiries or orders are received at a central point, we provide special telephone equipment designed to speed the handling of the calls and keep the operating expense at a minimum. We will be glad to study your own situation and recommend the equipment that will best suit your needs.

Brokers, department stores, and ticket agencies are among those who find this special telephone order equipment useful and economical.

Teletypewriter Service

The written word can now be transmitted just as the telephone transmits the spoken word. A teletypewriter looks like an ordinary typewriter and operates in the same way. A message written on it can be instantaneously reproduced at any other teletypewriter to which it is connected. The service is of two kinds:

Private Line Teletypewriter Service is used when two-way all-day written communication is needed between two or more points. You can send orders to factories or warehouses as fast as you can type, using your own order forms at both ends. Both sender and receiver have typewritten copies of each message and as many as six copies can be made by each teletypewriter.

Teletypewriter Exchange Service is used when you want to be able to keep in two-way written communication with any of the 10,000 people who have the same service in all parts of the country. "Central" makes the connections just as telephone connections are made and both ends can send and receive.

Speed: Connections can be made in about a minute.
Accuracy: Communications are reproduced exactly.
Acknowledgment: You know they have been received.
Simplicity: Any competent typist can learn easily.
Privacy: Connection between the two machines is direct.
Records: Each end has a typed copy for filing.

Conference by Telephone

When you want to confer with two or more people in the same city or in several cities, you can do so by telephone just as though you were all seated around the table. Each can hear and be heard by all. Conference service speeds decisions and saves both time and expense. A telephone conference is easy to arrange. Just call Long Distance (Dial 211) and ask for the Conference Operator. If a number of distant points are to be included in the conference, you should notify the operator a short time in advance.

Other Telephone Services for Home and Business

(Continued)

Concealed Telephone Wiring

When you are building or re-modeling your home, it will pay you to provide for concealed telephone wires. This will not cost much if done during construction. All that is needed in the average home is one pipe—or perhaps two—inside the walls from the basement to the upper floors. The telephone wires can be run through these pipes and brought into the rooms, as desired, through suitable outlets.

Unless this is arranged for, it may be necessary, when you come to install or change your telephone service, to expose wires on the baseboards or moldings or to drill holes in the floors or walls. This is particularly true in modern homes, where wall insulation and fire stops make it impossible to "fish" wires through completed walls and floors.

The wire attachment on the outside of the house can also be avoided at little cost by having the telephone connection placed underground at the time a trench is being opened up for water, gas, sewer or other piping.

If you wish to know more about this, just call the Business Office (Dial 811) and ask for our "Architects' and Builders' Service."

Switchboard and Teletypewriter Training

We invite you to send your switchboard and teletypewriter attendants to our Training School for advance training and coaching in correct operating practices. We shall also be glad to train any of your other employees who have had operating experience as a relief in emergency basis. There is no charge for this service. Call the Training Department—Exchange 6-5100—Extension 2663.

Someone Calling

Whenever you have to make a series of out-of-town calls you may file the list in writing with any of our Business Offices—or you may call Long Distance (Dial 211), ask for the Sequence Operator and give her your list over the telephone. If you wish, this list may become a permanent record for your periodic use in placing telephone calls. You may make additions and changes at any time.

Toll Credit Plan

Credit identification cards are furnished to travelling representatives of business concerns. Telephone calls can then be made from any telephone in the United States and the charges billed to the home office. Representatives do not need to carry cash for telephone calls, and the home office has information as to the telephone calling activities of its representatives.

Identification of Employees

Every employee of the Telephone Company authorized to install, inspect, repair or remove the Company's apparatus carries a metal badge showing the Company's name and his own number. Other telephone employees also carry suitable identification. We suggest that subscribers refuse access to their premises to anyone who represents himself as from this Company, but who cannot so identify himself.

Attachments to Telephones

The Company does not sanction the use of any devices except those furnished by it. This is in the interest of good service, since many of the devices offered for sale which are claimed to improve the service actually interfere with the service. Where ordinary equipment does not meet any particular need, the Company is ready to furnish special equipment at reasonable rates.

Aug. 1940

Telephoning Out-of-Town

Out-of-town calls are as easy to make as local calls. In most cases they go through while you hold the line. They cost little, as you may see by referring to the list of rates on the inside front cover. You can be connected with telephones not only in the United States but also in most foreign countries and on ships at sea.

Station-to-Station Calls

When you want us to do nothing more than connect you with the desired telephone, dial the Operator and tell her the city, state and the telephone number. If you don't know the number, say "St. Louis, Missouri, anyone at Read's Warehouse, 2100 Broad Street." The charge for a station-to-station call begins when the called telephone answers.

Person-to-Person Calls

When you want to be connected with some particular person or an extension telephone connected to a private switchboard, call Long Distance (Dial 211). Tell the Operator the city, state and person you want and also the telephone number, if you know it. The charge is slightly more than for a station-to-station call and begins only when you reach the person or the extension you want. If the telephone is reached, but not the person, a small report charge is made.

If you are not sure of the whereabouts of the one you wish to reach, Long Distance will try to find him.

Calls to Overseas Points

Just call Long Distance (Dial 211) and ask for the Overseas Operator. She will place your call or quote the rate to any point. For example, the weekday rate to Amsterdam and Brussels is $22.50, to Berlin and Rome $24.00, to Bombay and Cape Town $33.00, to Tokyo $30.75, to Sydney $27.75, to London and Paris $21.00, to Rio de Janeiro and Buenos Aires $15.00, to Honolulu $15.75, to Panama $11.25. Sunday rates are lower to most points.

Collect Calls

If you want the charges for an out-of-town call to be put on the bill of the called party, tell the Operator when you make the call that it is a "Collect Call." If, as soon as the called telephone answers, the charges are accepted, you will be connected. Otherwise there will be a small report charge.

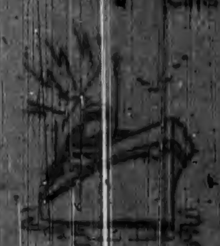
Collect calls cost no more than other out-of-town calls, except in the case of station-to-station calls having a [illegible] charge of 25¢ or less.

Collect calls cannot be made to ships at sea or to foreign countries except Canada, Cuba, Hawaii and Puerto Rico.

Appointment and Messenger Calls

The Long Distance Operator will arrange an appointment, if you wish, to be sure the called party will be at the telephone when you call. The charge is the same as for a person-to-person call. She will send a messenger to find the called party on any person-to-person call for a small additional charge.

Calls to Ships at Sea



Just call Long Distance (Dial 211) and ask for the Marine Operator.

The rate for Transatlantic ships is $[illegible] within 300 mi. of New York; $[illegible]—300 to 1500 mi.; $15.00 beyond 1500 mi. (for certain ships of foreign registry—$[illegible] within 500 mi.). For Transpacific ships the rate is $[illegible], $15.75 and $24.75 for similar distances from San Francisco. For Coastal and Harbor ships the rate via N.Y. radio terminal is $1.50 within 150 mi. of N.Y.; $3.00—150 to 500 mi. (for passenger ships [illegible] foreign ports—$[illegible] within 150 mi.)

Apartments&Apartment Houses—

The following is a list of Apartment and Apartment Houses generally known by street addresses. Apartment Houses generally known by given names are listed alphabetically under those names. Numbered streets with a locational or directional designation such as "Bay", "East", "West" etc., will be found under "B", "E", "W", while numbered streets without such designations will be found arranged numerically following the named streets.

GEORGE T. DAILY
SUCCESSOR TO DAILY BROS.
FUNERAL DIRECTOR
Office and Chapel
460 State St., Brooklyn
NEvins 8-3227
Residence
398 Dean St., Brooklyn
NEvins 8-3251
(Formerly of 69 De Kalb Ave.)

Aug. 1940

Aug. 1940

BEFORE YOU BUILD!

Plan for Concealed Telephone Wiring. Makes it easy to add future telephones; helps to enhance the artistic appearance of any room where there's a telephone. Just telephone the Business Office (Dial 811) for details.

It's Smart! Shop by Telephone.

JOHN J. DARRAUGH & SONS
FUNERAL DIRECTORS

Lots for little

Lots of enjoyment—lots of satisfaction to *talk* by telephone to some friend or relative far away. Costs so little, too! After 7 P.M. and all day every Sunday Long distance rates to most places are greatly reduced.

OPTICIAN

E. A. DOUDIET

551 Nostrand Avenue

Tel. NE vine 8-6222
